

NOYO HARBOR INN

The historic Noyo Harbor Inn is a magical place out of time that offers turn-of-the-century elegance combined with modern luxuries and amenities. Located on a hill above Noyo Harbor in the coastal city of Fort Bragg, California, the historic 1800s inn features 15 spacious rooms and suites – all elegantly appointed with warm tones and many retaining the craftsman-style millwork fashioned by expert carpenters in the early 1900s.

Most of the rooms, the gardens and the restaurant deck have expansive views over the working harbor, all the way out to the Pacific, enhancing the sense of peace married with adventure. The full-service HarborView Bistro & Bar is renowned for fresh coastal cuisine, the Coast's most extensive whisk(e)y list and Prohibition era cocktails, offering the best of both European-inspired and California-styled dishes. The inn also boasts a full-service spa, the Spa @ Noyo.

Noyo Harbor Inn provides warm hospitality to all who seek harbor here. We invite you to delight, dine, unwind and enjoy the views, serenity, personal service, and traditions of Noyo Harbor at our beautiful and historic property.

An inviting sanctuary that brings history to life while boasting all of the modern amenities a discriminating traveler seeks. Warm wood wainscoting made from local hardwoods enhances the 15 tastefully appointed rooms and suites across two buildings, many of which feature gas fireplaces, soaking tubs and private decks, and all of which boast 42-inch flat screen TVs, luxurious linens, Nespresso coffee and French press coffee makers.

The inn is soundproofed between floors, so every room and suite is its own private cocoon. There is a full-service restaurant serving fresh, local and organic California Coastal cuisine and a bar specializing in Prohibition-era libations along with an extensive whisk(e)y list. Manicured, fragrant gardens overlook a quaint fishing harbor on one side and ancient forests on the other. The sounds of surrounding wildlife enhance this intimate and luxurious getaway.

HARBORVIEW

BISTRO & BAR
at Noyo Harbor Inn

At Noyo Harbor Inn, HarborView Bistro & Bar features the freshest ingredients – including seafood caught just off the Pacific Coast and sold in the harbor below, ingredients sourced from other Mendocino County purveyors, such as beef and mushrooms, and herbs and flowers from Noyo Harbor Inn's own organic gardens – all of which contribute to the French-influenced California Coastal cuisine.

Tendering superior (but approachable) food, service and ambiance year-round, the restaurant also offers meal service when the sun is shining on the pet-friendly outdoor deck, with picturesque views of the river and boat docks, as the sea lions and sea gulls frolic and sing above and below. Guests can relax over a weekday breakfast or lunch, or a weekend brunch, in the restaurant's tranquil space, enjoying some of their specialty dishes and drinks, or dine elegantly in the evening, surrounded by the rich, cherrywood paneling of the dining room.

Happy Hour in the Bar area is on offer six days a week and is quite popular with both guests and locals alike with its seasonal specialty cocktail and local beer and wine from around California's wine country.

The bar and restaurant offer more than 100 whiskeys as well as expertly curated whiskey pairings for every appetizer and entrée on its dinner menu, and a new whiskey flight program designed to showcase rare and distinctive pours from around the world.

A delightful gazebo overlooking the harbor features the county's only cigar lounge featuring a cozy fire pit and a curated, thoughtful cigar list
